

Brand Presentation

Where the Light finds you. Worn, lived, loved. Every day.

Who we are, what we sell, and what a retailer earns with us.

THE BRAND

Who We Are

LoveLab is a jewellery brand from Antwerp, Belgium, founded in January 2025 by The Love Group BV. We make **sterling silver 925** jewellery set with **lab-grown diamonds**, and we sell it at a price ordinary people can afford.

We started with one idea: a real diamond should be available to every person, not only to the top of the market. So we set our entry price first, and built the product to meet it. A LoveLab bracelet starts at **€75 retail**, with a **0.05 carat lab-grown diamond**, in full presentation packaging.

We could have reached that price with cheap metal. We refused. A customer buying their first diamond should also be buying a noble metal. Gold would multiply the price five or six times and close the door we wanted to open.

CERTIFICATION

Every Diamond Counts, Certified by IGI

Since May 2026, LoveLab works in full collaboration with **IGI**, the largest diamond certification house in the world. IGI issues the certificates on our behalf, and both names appear on them together. We also hold the right to use the IGI name in our own communication and in the shops.

01

A FIRST

Certification used to be reserved for large stones. LoveLab makes it systematic, from 0.05 ct.

02

AN AUTHORITY

Every diamond is analysed by IGI. The rigour of the greatest stones, applied to each one.

03

SAME STANDARD

An individual certificate, in card format, with QR code. The same proof for a €75 piece as for an exceptional one.

No other brand in the world certifies a 0.05 carat stone. At our price, certification simply does not exist elsewhere. It is the difference between telling a customer the diamond is real and showing her that it is. It removes the only objection that matters at the counter.

THE ESSENCE

The Light You Can Wear

Every piece begins with a spark: a moment, a connection, a feeling, captured in a stone that carries its own story.

01

LIGHT

Light is the soul of LoveLab.

Our stones do not simply reflect light. They hold it, and turn it into something intimate and personal.

02

THREADS

The threads carry the Light.

Twenty shades, all subtle and intentional, evoke personal stories: beginnings, chapters, transitions, silent promises.

03

LOVE

An emotion you can wear.

A LoveLab piece does not speak of status. It speaks of meaning: the light you choose to keep close to you.

THE PRODUCT

Contemporary Fashion Jewellery

We are contemporary fashion jewellery. We are not trying to be a heritage maison. LoveLab is worn by the youngest generation of girls and by women of every age after them, because the range is wide enough to carry all of them, from the simplest piece to the most special.

Every piece comes on a cord, and the cord comes in twenty colours. The colour is not decoration; each one carries a mood, and the customer chooses it the way she chooses the day. That is why customers rarely buy one piece. **They build a set, and they come back.**

We release two collections a year: January and February for spring/summer, September and October for autumn/winter. The February 2027 collection is already in production.

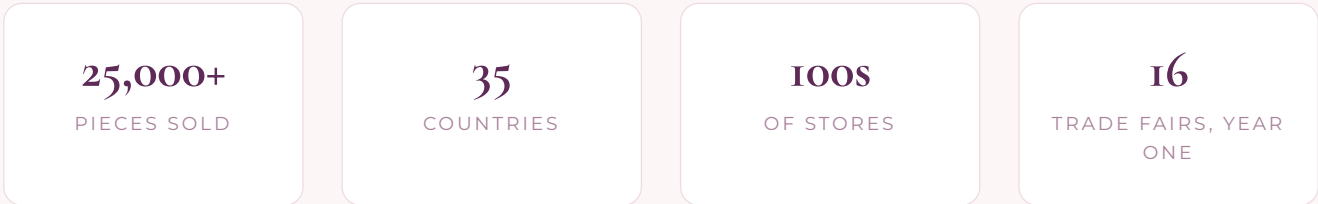

ONE DIAMOND, TWENTY MOODS

WHERE WE ARE TODAY

Eighteen Months, Starting From Zero

We spent the first six months building everything before we sold anything: the collections, the packaging, the manufacturing, the materials, the software, the offices and the retail support. Our first trade fair was BIJORHCA Paris in September 2025, and we came home with more than 65 new accounts.

A high percentage of reorders: some stores after only a few weeks, others after two or three months. The retailers who work their social media sell very large volumes. That is the pattern everywhere.

THE OPPORTUNITY

A New Approach

The Challenge	The LoveLab Answer
Diamonds as a distant luxury	A diamond at €75, accessible (VAT included)
Young buyers excluded by price	A price that opens doors
Young customers who hesitate	20 colours keep them engaged
One purchase, then silence	The first purchase is the first of many
Leaving without buying	The visitor becomes a buyer

520 STARTING COMBINATIONS
thousands more when layered

THE RANGE

The Collections

BESTSELLER

Le Cuty

Your first light. A single diamond, delicately attached to a coloured thread.

0.05–0.30 ct · sterling silver 925 · 20 nylon colours

COLLECTION

Le Multi

Some lights shine softly, others in rhythm. Sub-collections Three, Four & Five.

0.15–0.90 ct · sterling silver 925 · 6 colours

COLLECTION

Le Matchy

Two diamonds, one connection, for the bonds that matter. Pear, heart, emerald.

0.60 | 1.00 ct (pair) · bezel or prong · 6 colours

COLLECTION

Le Cubix

Geometric frame, round diamond. Structure meets softness.

0.05–0.20 ct · sterling silver 925 · 20 colours

COLLECTION

Le Shapy · Shine & Sparkle

Fancy shapes: heart, marquise, pear, cushion, emerald, oval, princess. Shine in nylon; Sparkle up to 1.00 ct in silk.

0.10–1.00 ct · 20 colours

COLLECTION

Le Holy

Four symbols, one light: cross, star, hamsa, Greek cross. Bracelets and necklaces.

0.50–3.00 ct · 18K gold or silver 925

COLLECTION

Le Classy

Your classic light: Mirano bracelets, Lugano earrings, Figaro necklaces. Conscious luxury for every day.

Silver 925 & 18K gold · paperclip & classic chains

NEW

Moonlight

The moon does not create light; it reflects it. One diamond framed by two crescents. From October: the men's line in matte silver.

0.05–1.10 ct · Full, Multi & Long · 5 colours

NEW

Sienna

Light needs no decoration; sometimes a frame is enough. A clean rectangular form. Poire, Sienna 3, 4 & 5.

0.20–0.50 ct · 5 colours

COLLECTION

Iconix

Your light, sculpted. Unique pieces: Riviera, Linea, Fleur Marquise, Fleur Cœur, Za-Ha.

0.20–0.50 ct · sterling silver 925 · 5 colours

Arriving next: unique **Iconix** pieces in September, **Première Classe** in Paris in October, and the **Moonlight** men's collection, **Sienna** and further **Iconix** pieces, also in October.

LE COLLIER

Now Also in Necklaces

Cuty · Multi · Matchy · Cubix · Shapy: five collections, now around the neck.

The whole collection that existed in bracelets is now fully available in **necklaces**. The same sterling silver 925, the same lab-grown diamonds, the same twenty cord colours and the same certification, worn at the neck instead of the wrist.

This was not a test on one or two references. Every collection has been converted, the necklaces are in the shops now, and they are already working well. The same diamonds, the same colours, the same light, worn closer to you: alone, layered, or matched with your favourite bracelet.

For a retailer this is the easiest kind of growth. **It doubles the range without doubling the space:** the same display, the same price architecture, the same customer. And it is the natural second sale: a customer who already owns the bracelet comes back for the necklace, or buys the two together as a set.

THE BUSINESS

What the Retailer Earns

On our official price list, the shop works on a multiple of **between 3 and 4.5 times**. Very few brands in this category give that. We do it on purpose: a retailer who makes money on LoveLab reorders LoveLab, and that is why we see a high percentage of reorders, some stores after only a few weeks, others after two or three months.

The pricing is structured and protected. There is **one official B2B price list and one recommended retail price list, and they are the same in all 35 markets**.

DISTRIBUTION

Three Kinds of Shop

LoveLab sells in three different kinds of shop. One brand, three doors:

01

JEWELLERS

Take it because of the certified diamond and the noble metal.

3-4.5×

RETAIL MULTIPLE

02

FASHION RETAIL

Takes it because of the colour and the seasons.

25,000+

PIECES SOLD IN 18 MONTHS

03

CONCEPT STORES

Take it because of the design and the packaging.

€75

CERTIFIED ENTRY POINT

READY TO SELL

What the Retailer Receives, at No Cost

Nothing to add, nothing to explain: every piece arrives ready to enchant. Every shop selling LoveLab officially, on the official price list, receives:

- The full presentation packaging: boxes, product cards and care instructions included
- Presentation boxes for the shop
- 4K product photography for their website and web shop
- Our complete lifestyle photography library
- Our campaign videos and content
- The official B2B and retail price lists
- The certification documents
- Colour selection cards for the counter

PACKED. PRESENTED. · EVERY PIECE ARRIVES READY TO ENCHANT

We invest heavily in photography and film because a retailer with good images sells at a completely different level. We would rather give them the material than watch them improvise.

THE SHOWCASE

Plug In and Sell

Separately, we produce an **illuminated display unit in the shape of a woman's handbag**, which presents the collection in the shop. No assembly: plug in and sell. It is not part of the free package; it normally sells at **€250**. With a serious partner, we are open to discussing how we handle it inside the collaboration.

THE BAGS THE ILLUMINATED
DISPLAY

VISIBILITY

Press and Visibility

Caroline Charles Communication is our official press house in Paris. She represents LoveLab to the French press, and it is Caroline who brought us **Netflix**. The contracts are signed and our pieces have been worn on the production. Beyond that we give no details, because Netflix gives none either: not about the content and not about the release date. For the brand, this is the largest international exposure we could have asked for.

From 1 September 2026, **Boutique Blonde** becomes our official press house for Germany and Austria, and will promote LoveLab across the whole German market.

Two press houses in the two most influential markets in Europe set the reference for every buyer on the continent. **A partner joining now inherits that visibility instead of paying to build it.**

CALENDAR

What Is Coming

- **September 2026:** Linea, the revisited Riviera and a new, very feminine collection, launching at BIJORHCA Paris and at the Buying Days on the Seine, the same weekend
- **October 2026:** Première Classe, Paris. The most selective accessories fair in the world accepted LoveLab in its first year, with a new patented men's and women's collection
- **October 2026:** the men's line: Moonlight in matte silver
- **February 2027:** the spring/summer collection, already in production
- **Netflix:** contracts signed, pieces worn on the production; we hope it appears at the end of the year, in time for the Christmas season

THE TEAM

How the Company Is Built

Structure, product, trade fairs and finance are in the hands of people in their thirties, forties and fifties. Social media, IT, photography, video and Google advertising are entirely in the hands of the young generation. They understand those tools better than we do, and at LoveLab we believe they deserve the chance to use them.

THE PARTNERSHIP

Growing Together

LoveLab grows through partners: independent jewellers, fashion retailers, concept stores and national distributors. Every partner works on the same protected price list, receives the same retail support at no cost, and inherits the international visibility the brand builds fair after fair.

THE PROPOSAL

One Market, One Strong Partner

For the right partner, we are open to **exclusive distribution across an entire market**. We bring the brand, the IGI certification, the margin and the international press behind it; the partner brings the shops, the customers and the knowledge of their market.

And this is never a proposal in one direction only. We are ready to sit down, to listen, and to shape the collaboration around your market, your customers and your conditions.

ONE BRAND · STRONG PARTNERS · 35 MARKETS

LoveLab: the certified lab-grown diamond, for everyone

OUR CONVICTION

Why We Started, and Why It Matters

We did not start LoveLab to add another brand to the market. We started it to change how jewellery is sold. Many have tried to copy us and none have succeeded. There was a market before LoveLab, and there is a market after it.
