Where Light Finds You

Worn, lived, loved. Every day.

THE ESSENCE

The Light You Can Wear

Every piece begins with a spark,
a moment, a connection, a feeling,
captured in a stone that carries its own story.

01

LIGHT

La Lumière is the soul of LoveLab.

Our stones don't just reflect light, they hold it. They turn it into something intimate and personal.

02

THREADS

The threads accompany the light.

Twenty shades, all subtle and intentional, echo personal stories: beginnings, chapters, transitions, quiet promises.

03

LOVE

An emotion you can wear.

A LoveLab piece is not about status. It's about meaning: the light you choose to keep close to you.

YOUR FIRST LIGHT

This is your first light.

The moment you choose to remember.

The milestones, the transitions, the first steps
that stay with you.

Light tied softly on a thread of colour.

A beginning you can wear.

Sienna

Light doesn't need decoration.

Sometimes, a frame is enough.

Sienna sets a lab-grown diamond in a simple rectangular shape.

A self-assured design, timeless and a little bold.

The beauty of simplicity.

CERTIFICATION

Every Diamond Counts

Certifying a diamond has a cost.

On a small stone, that cost often defies market logic. That's why the industry didn't do it. IGI, one of the world's leading authorities, now certifies every LoveLab Antwerp piece, whatever its weight.

01

A FIRST

Certification was reserved for large stones. LoveLab makes it systematic, from 0.05 ct.

02

AN IGI AUTHORITY

Every diamond is analysed by IGI. The rigour of the largest stones, applied to each one.

03

SAME STANDARD

An individual certificate, in card format. The same proof for a €75 piece as for an exceptional one.
